

Have your say now!

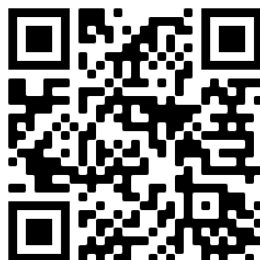

Southern Water propose to recycle treated final effluent from **Budds Farm Sewage Works**, pump it in to the **Havant Thicket Reservoir** and use it to supply our drinking water.

- *Are you happy to drink water recycled from the Budds Farm Sewage Works?*
 - *What will be the environmental impact on the reservoir? Are you concerned that Southern Water have not yet looked at this?*
 - *Would you prefer tunnels dug below Leigh Park and Bedhampton or a pipeline trench cut along Park Lane & Middle Park Way?*
-

These are just three of the many questions that need to be asked.

You have until 16 August to tell them what you think of this plan.
